
1. Introduction

2. Geological setting

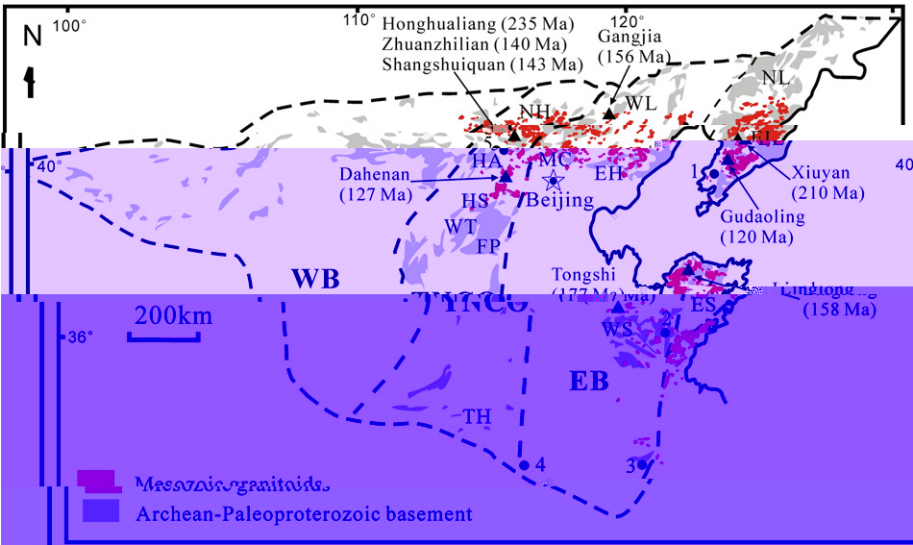

Fig. 1.

3. Granulite terrains

4. Lower crustal xenoliths

4.1. Xenoliths and zircon xenocrysts in Paleozoic kimberlites (Mengyin and Fuxian)

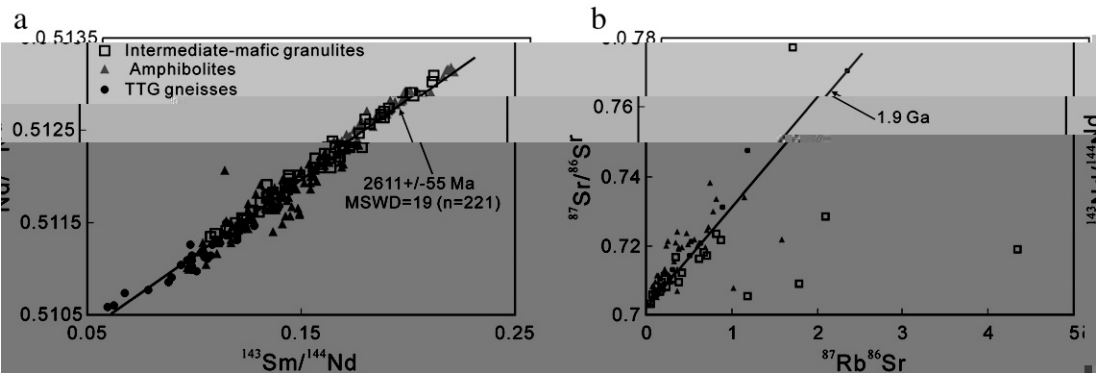

Fig. 2.

4.3.2. Nushan

5. Mesozoic intermediate-felsic igneous rocks

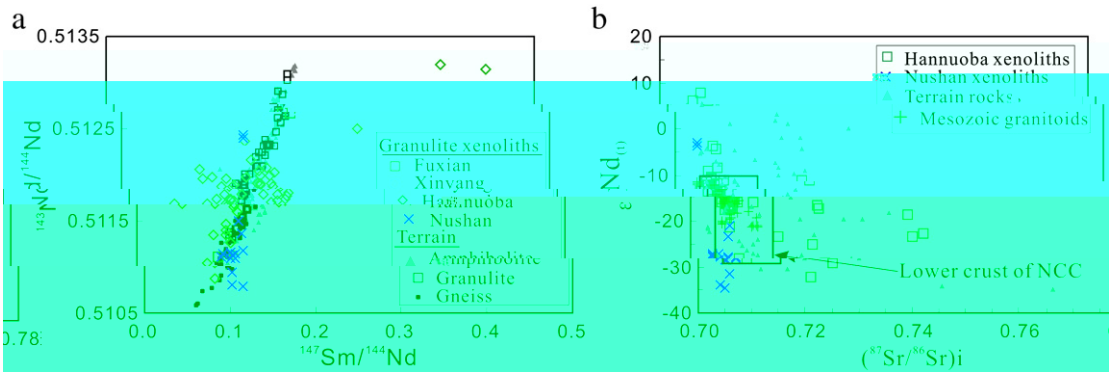

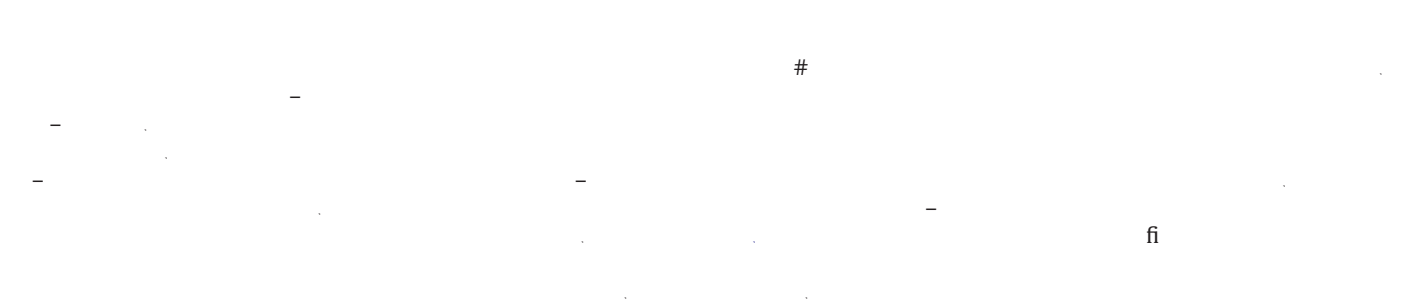

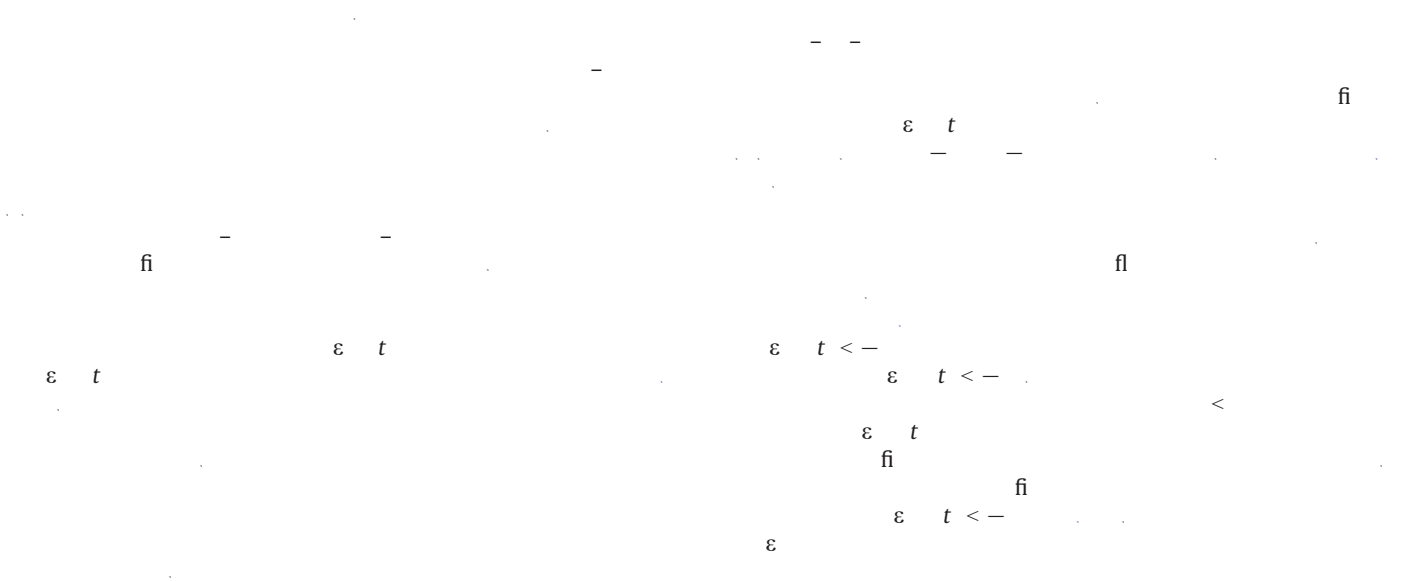

Fig. 3.

6. Discussion

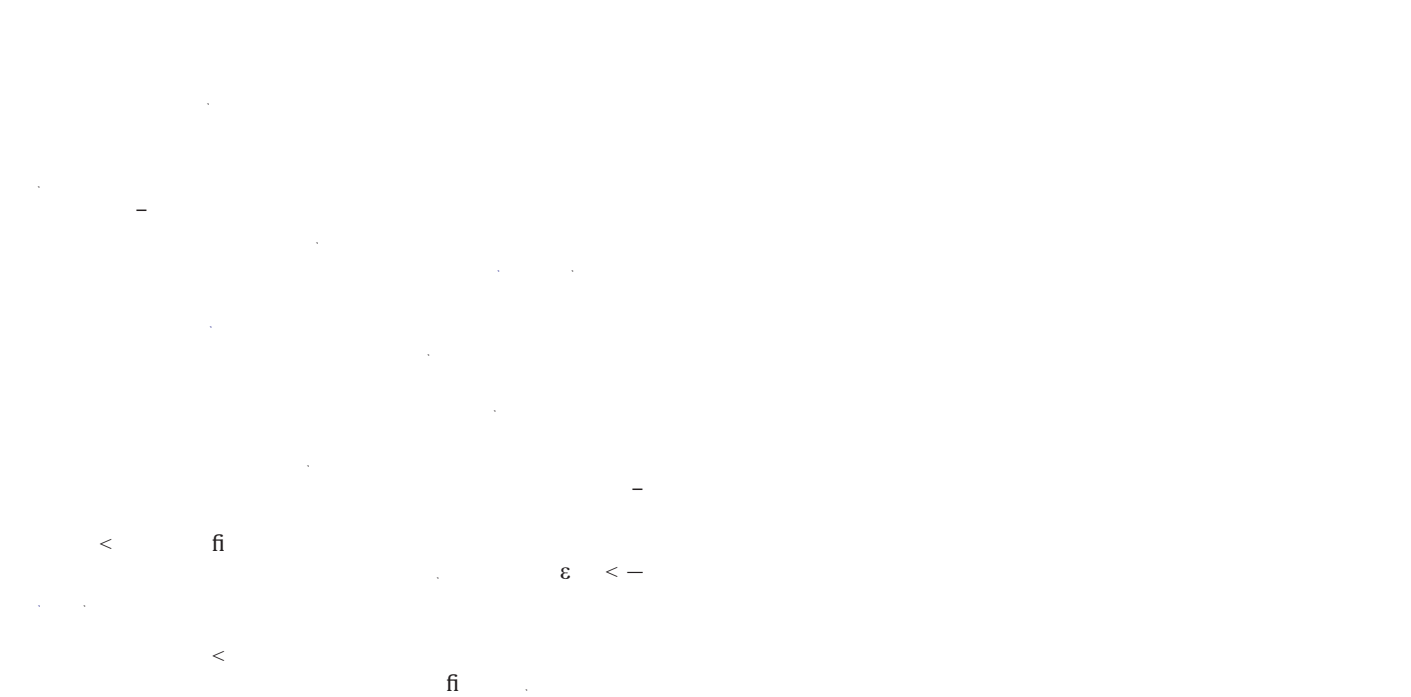

6.1. Timing of lower crust formation

6.3. Sr–Nd–Hf isotopic compositions of the lower crust

6.2. Composition of the lower crust
